To: South Carolina Public Commissioners:

I, Winston Alleyne am writing to request (please) for my SCPSC license number of 6463 to be reinstated. I have had this number for some time and have always followed all the rules and regulations that were presented to me. I allowed a friend to drive with my number with the condition that he would pay all dues, and obey all rules and regulations, until I was able to drive myself. The friend was to send in the required information to you in a timely manner, which I have now found out, was sent in one day late. I am truly, truly sorry for this inconvenience to you, and I assure you; if you were please allow my SCPSC number 6463 to be reinstated, this will NEVER happen again. I enjoy taxi driving, and I have no other income to live by at the current moment. I need to be able to drive taxi to support my family. Please consider my plea for your mercy in this situation. I do know that I am very lucky to have a SCPSC number, for it is a timely item and privilege to obtain. I request for my SCPSC number 6463 to become active, and will continue to obey all rules and regulations according to SC State law. I thank you in advance for your consideration and mercy on me.

Respectfully,

Winston Alleyne
